

PRESCRIPTION REQUEST FORM

NO "Authority Script" will be written without an appointment. We do not wish to embarrass you by refusing, so please make sure you have an appointment booked well in advance.

Your GP may be able to write some, if not all of your prescriptions, other than an Authority Script. Check with your GP first, before contacting Dr Roberts.

Your request MUST be in writing, using this form. Follow these instructions. Open this document and complete ALL questions, then email the form to us (reception@kidsdoctor.com.au). A lost script will not be re-issued without the process being completed again.

Please note: Your request will take time to process and we cannot give a date of when the script will be ready, but allow 7-14 days approximately. The process will not begin until we receive the completed form. Please answer ALL FIELDS otherwise the form will be returned to you, thus causing delay.

There will be a fee for a script written without an appointment, which is not covered by Medicare and this is to be paid prior to a script being issued.

Full name of Patient _____

Patient Date of Birth _____

Patient Address _____

Medicare Number _____

Name of the Person requesting the script _____

Relationship to Patient _____
